EDUCATION

VIT Bhopal University

B.Tech - Computer Science and Engineering - **CGPA - 9.07**

Sep 2023 – Sep 2027

Bhopal, Madhya Pradesh

EXPERIENCE

Zidio Development

Role - Data Science and Analytics Intern

May 2025 – Jul 2025

Remote

- Built end-to-end data analytics pipelines for 200K+ records involving data extraction, cleaning, preprocessing, feature engineering, EDA, and visualization.
- Formulated and optimized time-series, LSTM, and regression models, improving prediction accuracy by **15–20%** through feature engineering and hyperparameter tuning.
- Automated ETL and reporting workflows using reusable data pipelines and dashboards, reducing manual reporting time by **30%**.

PROJECTS

DataLens 🔗 | Python, FastAPI, Pandas, Plotly, HTML, CSS, JavaScript

Jul 2026

- Developed an AI-powered dataset analysis platform that processed **300+** CSV/Excel datasets, delivering automated EDA, interactive visualizations, statistical summaries, and natural-language insights.
- Engineered an end-to-end analytics pipeline with **FastAPI, Pandas, Plotly**, integrating automated data preprocessing, exploratory data analysis, and intelligent conversational analytics.
- Deployed a production-ready application on Render with scalable backend architecture and responsive frontend.

CredGuard 🔗 | Python, FastAPI, LightGBM, SHAP, Scikit-learn, SQLite

Feb 2026

- Performed EDA on 300K+ loan applications and engineered domain-specific financial risk features.
- Trained and compared Logistic Regression, Random Forest, LightGBM, and helped in achieving a score of **ROC-AUC: 0.7688**.
- Implemented a FastAPI-based web application with **SHAP Explainable AI** for transparent credit risk prediction. Enabled users to upload customer information, generate risk scores, and visualize the factors influencing model decisions.

Deepfake Image Detection System 🔗 | Python, TensorFlow, PyTorch, CNN

Apr 2025

- Engineered a CNN-based deep learning model for deepfake image detection using image preprocessing, feature extraction, and transfer learning techniques.
- Evaluated multiple CNN architectures and training strategies, achieving an **F1-score of 0.90+** while improving generalization across diverse deepfake datasets.
- Designed a scalable deepfake detection pipeline suitable for digital forensics, identity verification, and media authentication.

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, MATLAB

Data Science: Pandas, NumPy, EDA, Data Preprocessing, Feature Engineering, Statistical Analysis

Machine Learning & AI: Supervised Learning, Unsupervised Learning, Deep Learning, NLP, Computer Vision, Time-Series Forecasting, Model Evaluation, Hyperparameter Tuning, SHAP

Frameworks & Libraries: TensorFlow, PyTorch, Keras, FastAPI, Scikit-learn, LightGBM, Pandas, NumPy, OpenCV, NLTK, Plotly

Developer Tools: Git, Jupyter Notebook, VS Code, Render, Vercel

CERTIFICATIONS

- Microsoft AI Skills Certification
- The Bits and Bytes of Computer Networking by Google (Coursera)
- Deloitte GenW.AI Explorer and Architect (Top 60 Teams Across India)

EXTRACURRICULAR

- Member of **Microsoft Club** at VIT Bhopal, contributing to event management and technical activities.
- Certified in **Adobe UI/UX (Graphic Design)**.
